Ika G849

TECHNICAL INFORMATION

Designer: Mauro Lipparini

IKA Desk completes the living program with an original proposal to meet modern "Home Office" needs. Today, more than ever, it is necessary to reconcile life and work within our homes. IKA provides versatile, comfortable, and suitable furniture for our needs. Organic shapes and purity of lines are the essence of the Koishi desk.

A desk with an organic shape top that refers to feelings of serenity perfectly combining with the rigor of the metal legs personalized by the detail of the decorative foot. Functionality and design for a new Home Office corner make Koishi the protagonist of a contemporary and young living space.

PRODUCT DETAILS:

The base of the desk is turned, polished, and powder-coated tubular steel with a smooth Bronze-colored texture. The special painting based on polyester resins without pigments and additives has an excellent durability and guarantees excellent preservation of the brightness and color stability. The base of the project is personalized in design by a decorative foot in black ABS non-slip and non-marking plastic.

Top made of sectioned MDF with a beveled edge. It is veneered in natural oak with running flame, and has decorative bubbles in matt lacquer. The polyurethane lacquer composed of resin perfectly covers the surface, giving it the same color thickness, impact resistance, homogeneity, and flatness to the surface.

The IKA desk can be completed with a completely lacquered chest of drawers (optional sold separately). Equipped with a container drawer with a curved plywood front and an open compartment. The drawer is equipped with a blum motion soft closing system. The chest of drawers is completely lacquered with a matte finish, and equipped with retractable swivel wheels to allow simple movement.
